

Empathy map canvas

Use this framework to empathize with a customer, user, or any person who is affected by a team's work. Document and discuss your observations and note your assumptions to gain more empathy for the people you serve.

Develop shared understanding and empathy

Summarize the data you have gathered related to the people that are impacted by your work. It will help you generate ideas, prioritize features, or discuss decisions.

WHO are we empathizing with?

Who is the person we want to understand? What is the situation they are in?

What are their fears,

GOAL

What do they THINK and FEEL?

what do they need to do differently?

what jobs do they want or need to get done?

What do they SEE?

What do they see in the marketplace? What do they see in their immediate environment? What do they see others saying and doing? What are they watching and reading?

What do they SAY?

What have we heard them say? What can we magine them saying?

What is their role in the situation?

What do they HEAR?

What are they hearing others say? What are they hearing from friends? What are they hearing from colleagues? What are they hearing second-hand?

What do they DO?

What can we imagine them doing?
